MEMORANDUM FOR: Director of Central Intelligence

Sir:

1. Attached for your review and use is a new "Principal Officers of the Central Intelligence Agency" booklet we started to put together last week. The copy you have is the single master copy, i.e., it is the only copy that has the colored photographs. We could obviously make more if you like. We also have four other copies which are comprised of Xeroxed biographic sheets.

2. Inasmuch as it was my idea, I set the ground rules. I decided it should contain only those immediately associated with you in O-DCI, and, further, would have entries for DD's, ADD's, and heads of operating components. When I received back the material from the Directorates, most of them also suggested sheets be included for senior staff members. I vote against it both because I don't like it, and, secondly, your testimony at the Presidential Commission stressed the simplicity of the command structure of the organization. That being the case, I think we are wise to keep this booklet streamlined.

3. Should you want any changes, additions, or anything else, then that is what we are here to do.

John F. Blake

John F. Blake
Deputy Director
for
Administration
